

Please do not change the current regulations regarding ownership of broadcast facilities. I feel it is very dangerous to allow the concentration of ownership in too few hands. Freedom of the press is an essential right of the American people. But if the press is owned by only a few, what freedom is there if all opinions can not be broadcast and heard? I agree with Ted Turner, my hero. Please do not tinker with your very successful existing regulations. Please do not tinker with our freedom. Your proposed regulations would have the backing of an Adolf Hitler when he was trying to take over Germany. He hated the free press. Thank you.
